INDEX TO VOLUME 136

Alphabetical Table of Contents of Authors

AARSSEN, LONNIE W. See DOUGLAS R. TAYLOR

AUSTAD, STEVEN. See MARLENE ZUK

BALL, GREGORY F. See JOHN C. WINGFIELD

BEISSINGER, STEVEN R. Experimental brood manipulations and the monoparental threshold in snail kites, 20

BENGTSSON, BENGT O., and CHRISTER LÖFSTEDT. No evidence for selection in a phermonally polymorphic moth population, 722

BOGGS, CAROL L. A general model of the role of male-donated nutrients in female insects' reproduction, 509

BRAWN, JEFFREY D. See JAMES R. KARR

BREDEN, FELIX, and GLENN HAUSFATER. Selection within and between social groups for infanticide, 673

BRYANT, EDWIN H., LISA M. MEFFERT, and STEVEN A. MCCOMMAS. Fitness rebound in serially bottlenecked populations of the house fly, 542

BRYANT, J. P. See F. D. PROVENZA

BURRITT, E. A. See F. D. PROVENZA

CALVO, RICARDO N., and CAROL C. HORVITZ. Pollinator limitation, cost of reproduction, and fitness in plants: a transition-matrix demographic approach, 499

CASPER, BRENDA B. Seedling establishment from one- and two-seeded fruits of *Cryptantha flava:* a test of parent-offspring conflict, 167

CLAUSEN, T. P. See F. D. PROVENZA

COOKE, FRED, PETER D. TAYLOR, CHARLES M. FRANCIS, and ROBERT F. ROCKWELL. Directional selection and clutch size in birds, 261

CORNELL, HOWARD V. Survivorship, life history, and concealment: a comparison of leaf miners and gall formers, 581

COSTIN, COLLEEN. See MARLENE ZUK

DAYAN, TAMAR, DANIEL SIMBERLOFF, EITAN TCHERNOV, and YORAM YOM-TOV. Feline canines: community-wide character displacement among the small cats of Israel, 39

DESANTE, DAVID F. The role of recruitment in the dynamics of a Sierran subalpine bird community, 429

DEVLIN, B., and NORMAN C. ELLSTRAND. Male and female fertility variation in wild radish, a hermaphrodite, 87

DISTEL, R. A. See F. D. PROVENZA

DIXON, A. F. G. See AULAY MACKENZIE

DUFTY, ALFRED M., JR. See JOHN C. WINGFIELD

ELLSTRAND, NORMAN C. See B. DEVLIN

ELNER, R. W., and R. L. VADAS, SR. Inference in ecology: the sea urchin phenomenon in the northwestern Atlantic, 108

FAIRBAIRN, DAPHNE J. Factors influencing sexual size dimorphism in temperate waterstriders, 61

FETCHER, NED, and GAIUS R. SHAVER. Environmental sensitivity of ecotypes as a potential influence on primary productivity, 126

FRANCIS, CHARLES M. See FRED COOKE

FRANK, STEVEN A., and MONTGOMERY SLATKIN. Evolution in a variable environment, 244

FRY, JAMES D. Trade-offs in fitness on different hosts: evidence from a selection experiment with a phytophagous mite, 569

GAYLEY, TODD W., and RICHARD E. MICHOD. Modification of genetic constraints on frequency-dependent selection, 406

GODFRAY, H. C. J., and J. K. WAAGE. The evolution of highly skewed sex ratios in aphelinid wasps, 715

INDEX TO VOLUME 136

FRY, JAMES D. Trade-offs in fitness on different hosts: evidence from a selection experiment with a phytophagous mite, 569

GAYLEY, TODD W., and RICHARD E. MICHOD. Modification of genetic constraints on frequency-dependent selection, 406

GODFRAY, H. C. J., and J. K. WAAGE. The evolution of highly skewed sex ratios in aphelinid wasps, 715

GREGORIUS, HANS-ROLF. A diversity-independent measure of evenness, 701
GROSS, MART R. See JOHN D. REYNOLDS
GROVER, JAMES P. Resource competition in a variable environment: phytoplankton growing according to Monod's model, 771
GWYNNE, DARRYL T. Testing parental investment and the control of sexual selection in katydids: the operational sex ratio, 474

HAIG, DAVID. Brood reduction and optimal parental investment when offspring differ in quality, 550
HALL, PAMELA. See RICHARD B. PRIMACK
HALL, S. J., D. RAFFAELLI, and W. R. TURRELL. Predator-caging experiments in marine systems: a reexamination of their value, 657
HAMRICK, J. L. See CHRISTOPHER C. SMITH
HARVEY, ALAN WAYNE. Sexual differences in contemporary selection acting on size in the hermit crab *Clibanarius digueti,* 292
HAUSFATER, GLENN. See FELIX BREDEN
HEGNER, ROBERT E. See JOHN C. WINGFIELD
HERBERS, JOAN M. Reproductive investment and allocation ratios for the ant *Leptothorax longispinosus:* sorting out the variation, 178
HOCHBERG, MICHAEL E., and ROBERT D. HOLT. The coexistence of competing parasites. I. The role of cross-species infection, 517
HOLT, ROBERT D. See MICHAEL E. HOCHBERG
HORVITZ, CAROL C. See RICARDO N. CALVO

IMS, ROLF ANKER. On the adaptive value of reproductive synchrony as a predator-swamping strategy, 485
ITZKOWITZ, MURRAY. Sex-ratio biasing and male reproductive variation in a coral-reef fish, 557

JOHNSON, KRISTINE. See MARLENE ZUK

KARASOV, WILLIAM H. See CARLOS MARTÍNEZ DEL RIO
KARLSSON, BENGT. See CHRISTER WIKLUND
KARR, JAMES R., JAMES D. NICHOLS, M. KATHLEEN KLIMKIEWICZ, and JEFFREY D. BRAWN. Survival rates of birds of tropical and temperate forests: will the dogma survive? 227
KLIMKIEWICZ, M. KATHLEEN. See JAMES R. KARR
KRAMER, CHARLES L. See CHRISTOPHER C. SMITH

LEONARD, MARTY L. Polygyny in marsh wrens: asynchronous settlement as an alternative to the polygyny-threshold model, 446
LIGON, J. DAVID. See MARLENE ZUK
LIGON, SANDRA H. See MARLENE ZUK
LÖFSTEDT, CHRISTER. See BENGT O. BENGTSSON
ŁOMNICKI, ADAM, and EWA SYMONIDES. Limited growth of individuals with variable growth rates, 712
LYNCH, MICHAEL. The rate of morphological evolution in mammals from the standpoint of the neutral expectation, 727

MACKENZIE, AULAY, and A. F. G. DIXON. Host alternation in aphids: constraint versus optimization, 132
MAGNUSON, JOHN J. See WILLIAM M. TONN
MARTÍNEZ DEL RIO, CARLOS, and WILLIAM H. KARASOV. Digestion strategies in nectar- and fruit-eating birds and the sugar composition of plant rewards, 618
MCCOMMAS, STEVEN A. See EDWIN H. BRYANT
MEFFERT, LISA M. See EDWIN H. BRYANT
MICHOD, RICHARD E. See TODD W. GAYLEY
MORAN, NANCY A. Aphid life cycles: two evolutionary steps, 135

NICHOLS, JAMES D. See JAMES R. KARR

ORR, H. ALLEN. "Why polyploidy is rarer in animals than in plants" revisited, 759

PACKER, C., D. SCHEEL, and A. E. PUSEY. Why lions form groups: food is not enough, 1
PETERS, ROBERT H. See BILL SHIPLEY
PRIMACK, RICHARD B., and PAMELA HALL. Costs of reproduction in the pink lady's slipper orchid: a four-year experimental study, 638
PROVENZA, F. D., E. A. BURRITT, T. P. CLAUSEN, J. P. BRYANT, P. B. REICHARDT, and R. A. DISTEL. Conditioned flavor aversion: a mechanism for goats to avoid condensed tannins in blackbrush, 810
PUSEY, A. E. See C. PACKER

RAFFAELLI, D. See S. J. HALL
RAHEL, FRANK J. The hierarchical nature of community persistence: a problem of scale, 328
RASK, MARTTI. See WILLIAM M. TONN
REAL, LESLIE. Search theory and mate choice. I. Models of single-sex discrimination, 376
REICHARDT, P. B. See F. D. PROVENZA
REYNOLDS, JOHN D., and MART R. GROSS. Costs and benefits of female mate choice: is there a lek paradox? 230
ROCKWELL, ROBERT F. See FRED COOKE

SCHEEL, D. See C. PACKER
SCHLUTER, DOLPH. Species-for-species matching, 560
SHAVER, GAIUS R. See NED FETCHER
SHIPLEY, BILL, and ROBERT H. PETERS. A test of the Tilman model of plant strategies: relative growth rate and biomass partitioning, 139
SIMBERLOFF, DANIEL. See TAMAR DAYAN
SLATKIN, MONTGOMERY. See STEVEN A. FRANK
SMITH, CHRISTOPHER C., J. L. HAMRICK, and CHARLES L. KRAMER. The advantage of mast years for wind pollination, 154
SNOW, ALLISON A. Effects of pollen-load size and number of donors on sporophyte fitness in wild radish (*Raphanus raphanistrum*), 742
STERNER, ROBERT W. The ratio of nitrogen to phosphorus resupplied by herbivores: zooplankton and the algal competitive arena, 209
SUTHERLAND, JOHN P. Perturbations, resistance, and alternative views of the existence of multiple stable points in nature, 270
SYMONIDES, EWA. See ADAM ŁOMNICKI

TAYLOR, DOUGLAS R., and LONNIE W. AARSSEN. Complex competitive relationships among genotypes of three perennial grasses: implications for species coexistence, 305
TAYLOR, PETER D. See FRED COOKE
TCHERNOV, EITAN. See TAMAR DAYAN
THORNHILL, NANCY WILMSEN. See MARLENE ZUK
THORNHILL, RANDY. See MARLENE ZUK
TOIVONEN, JORMA. See WILLIAM M. TONN
TONN, WILLIAM M., JOHN J. MAGNUSON, MARTTI RASK, and JORMA TOIVONEN. Intercontinental comparison of small-lake fish assemblages: the balance between local and regional processes, 345
TURRELL, W. R. See S. J. HALL

VADAS, R. L., SR. See R. W. ELNER

WAAGE, J. K. See H. C. J. GODFRAY
WARREN, PHILIP H. Variation in food-web structure: the determinants of connectance, 689
WHELAN, CHRISTOPHER J. See MARY F. WILLSON
WIKLUND, CHRISTER, and BENGT KARLSSON. Sexual size dimorphism and fecundity in satyrid butterflies: a reply to Harvey's comment, 268
WILLSON, MARY F., and CHRISTOPHER J. WHELAN. The evolution of fruit color in fleshy-fruit plants, 790
WINGFIELD, JOHN C., ROBERT E. HEGNER, ALFRED M. DUFTY, JR., and GREGORY F. BALL. The "challenge hypothesis": theoretical implications for patterns of testosterone secretion, mating systems, and breeding strategies, 829

YOM-TOV, YORAM. See TAMAR DAYAN

ZUK, MARLENE, RANDY THORNHILL, J. DAVID LIGON, KRISTINE JOHNSON, STEVEN AUSTAD, SANDRA H. LIGON, NANCY WILMSEN THORNHILL, and COLLEEN COSTIN. The role of male ornaments and courtship behavior in female mate choice of red jungle fowl, 459

Alphabetical Table of Contents of Titles

On the adaptive value of reproductive synchrony as a predator-swamping strategy. Rolf Anker Ims, 485
The advantage of mast years for wind pollination. Christopher C. Smith, J. L. Hamrick, and Charles L. Kramer, 154
Aphid life cycles: two evolutionary steps. Nancy A. Moran, 135

Brood reduction and optimal parental investment when offspring differ in quality. David Haig, 550

The "challenge hypothesis": theoretical implications for patterns of testosterone secretion, mating systems, and breeding strategies. John C. Wingfield, Robert E. Hegner, Alfred M. Dufty, Jr., and Gregory F. Ball, 829
The coexistence of competing parasites. I. The role of cross-species infection. Michael E. Hochberg and Robert D. Holt, 517
Complex competitive relationships among genotypes of three perennial grasses: implications for species coexistence. Douglas R. Taylor and Lonnie W. Aarssen, 305
Conditioned flavor aversion: a mechanism for goats to avoid condensed tannins in blackbrush. F. D. Provenza, E. A. Burritt, T. P. Clausen, J. P. Bryant, P. B. Reichardt, and R. A. Distel, 810
Costs and benefits of female mate choice: is there a lek paradox? John D. Reynolds and Mart R. Gross, 230
Costs of reproduction in the pink lady's slipper orchid: a four-year experimental study. Richard B. Primack and Pamela Hall, 638

Digestion strategies in nectar- and fruit-eating birds and the sugar composition of plant rewards. Carlos Martínez del Rio and William H. Karasov, 618
Directional selection and clutch size in birds. Fred Cooke, Peter D. Taylor, Charles M. Francis, and Robert F. Rockwell, 261
A diversity-independent measure of evenness. Hans-Rolf Gregorius, 701

Effects of pollen-load size and number of donors on sporophyte fitness in wild radish (*Raphanus raphanistrum*). Allison A. Snow, 742
Environmental sensitivity of ecotypes as a potential influence on primary productivity. Ned Fetcher and Gaius R. Shaver, 126
The evolution of fruit color in fleshy-fruited plants. Mary F. Willson and Christopher J. Whelan, 790
The evolution of highly skewed sex ratios in aphelinid wasps. H. C. J. Godfray and J. K. Waage, 715
Evolution in a variable environment. Steven A. Frank and Montgomery Slatkin, 244
Experimental brood manipulations and the monoparental threshold in snail kites. Steven R. Beissinger, 20

Factors influencing sexual size dimorphism in temperate waterstriders. Daphne J. Fairbairn, 61
Feline canines: community-wide character displacement among the small cats of Israel. Tamar Dayan, Daniel Simberloff, Eitan Tchernov, and Yoram Yom-Tov, 39
Fitness rebound in serially bottlenecked populations of the house fly. Edwin H. Bryant, Lisa M. Meffert, and Steven A. McCommas, 542

A general model of the role of male-donated nutrients in female insects' reproduction. Carol L. Boggs, 598

The hierarchical nature of community persistence: a problem of scale. Frank J. Rahel, 328
Host alternation in aphids: constraint versus optimization. Aulay Mackenzie and A. F. G. Dixon, 132

Inference in ecology: the sea urchin phenomenon in the northwestern Atlantic. R. W. Elner and R. L. Vadas, Sr., 108
Intercontinental comparison of small-lake fish assemblages: the balance between local and regional processes. William M. Tonn, John J. Magnuson, Martti Rask, and Jorma Toivonen, 345
Limited growth of individuals with variable growth rates. Adam Łomnicki and Ewa Symonides, 712

Male and female fertility variation in wild radish, a hermaphrodite. B. Devlin and Norman C. Ellstrand, 87
Modification of genetic constraints on frequency-dependent selection. Todd W. Gayley and Richard E. Michod, 406

No evidence for selection in a phermonally polymorphic moth population. Bengt O. Bengtsson and Christer Löfstedt, 722

Perturbations, resistance, and alternative views of the existence of multiple stable points in nature. John P. Sutherland, 270
Pollinator limitation, cost of reproduction, and fitness in plants: a transition-matrix demographic approach. Ricardo N. Calvo and Carol C. Horvitz, 499
Polygyny in marsh wrens: asynchronous settlement as an alternative to the polygyny-threshold model. Marty L. Leonard, 446
Predator-caging experiments in marine systems: a reexamination of their value. S. J. Hall, D. Raffaelli, and W. R. Turrell, 657

The rate of morphological evolution in mammals from the standpoint of the neutral expectation. Michael Lynch, 727
The ratio of nitrogen to phosphorus resupplied by herbivores: zooplankton and the algal competitive arena. Robert W. Sterner, 209
Reproductive investment and allocation ratios for the ant *Leptothorax longispinosus:* sorting out the variation. Joan M. Herbers, 178
Resource competition in a variable environment: phytoplankton growing according to Monod's model. James P. Grover, 771
The role of male ornaments and courtship behavior in female mate choice of red jungle fowl. Marlene Zuk, Randy Thornhill, J. David Ligon, Kristine Johnson, Steven Austad, Sandra H. Ligon, Nancy Wilmsen Thornhill, and Colleen Costin, 459
The role of recruitment in the dynamics of a Sierran subalpine bird community. David F. DeSante, 429

Search theory and mate choice. I. Models of single-sex discrimination. Leslie Real, 376
Seedling establishment from one- and two-seeded fruits of *Cryptantha flava:* a test of parent-offspring conflict. Brenda B. Casper, 167
Selection within and between social groups for infanticide. Felix Breden and Glenn Hausfater, 673
Sex-ratio biasing and male reproductive variation in a coral-reef fish. Murray Itzkowitz, 557
Sexual differences in contemporary selection acting on size in the hermit crab *Clibanarius digueti.* Alan Wayne Harvey, 292
Sexual size dimorphism and fecundity in satyrid butterflies: a reply to Harvey's comment. Christer Wiklund and Bengt Karlsson, 268
Species-for-species matching. Dolph Schluter, 560
Survival rates of birds of tropical and temperate forests: will the dogma survive? James R. Karr, James D. Nichols, M. Kathleen Klimkiewicz, and Jeffrey D. Brawn, 277
Survivorship, life history, and concealment: a comparison of leaf miners and gall formers. Howard V. Cornell, 581

A test of the Tilman model of plant strategies: relative growth rate and biomass partitioning. Bill Shipley and Robert H. Peters, 139
Testing parental investment and the control of sexual selection in katydids: the operational sex ratio. Darryl T. Gwynne, 474
Trade-offs in fitness on different hosts: evidence from a selection experiment with a phytophagous mite. James D. Fry, 569

Variation in food-web structure: the determinants of connectance. Philip H. Warren, 689

Why lions form groups: food is not enough. C. Packer, D. Scheel, and A. E. Pusey, 1
"Why polyploidy is rarer in animals than in plants" revisited. H. Allen Orr, 759
